

Values Integrated Through Action-based Learning

Implementing Vital Programs in schools
has proven to:

- Transform the school culture
- Decrease behaviour incidents
- Decrease behaviour referrals and suspensions
- Reduce bullying incidents
- Address underlying issues that lead to negative body image, self-harm and suicidal behaviour
- Increase levels of engagement and participation in the classroom
- Reduce barriers to classroom learning
- Increase levels of positive social interaction amongst peers
- Equip students to respectfully work as an effective team

To implement this program in your school:

Option #1 Hire a VITAL Facilitator to run the program over a semester at your school

Option #2 Train a staff member from your school to be a Program Facilitator

School Suspensions reduced by 68% for UnLimited Program participants

- 56% decrease of behavioural incidents
- 68% decrease in suspensions
- 67% increase in team building
- 68% increase in emotional well-being

Results supplied by two schools with 28 students participating in VITAL ProJeX's Year 9 Program.

Endorsements

"We can highly recommend the No Limits course to any organisations that work with young people." Principal of Ipswich State High School

"I learnt to value other people which I wasn't good at. I also learnt how to work in a team, I wasn't good at that either. VITAL has shown me the right path not the wrong one." Student (previously expelled for behaviour related incidents)

"Zack has developed fantastic leadership and cooperation skills which have helped with group work in the classroom and socially at lunchtime." Parent
